📍 Pune, Maharashtra | 📞 +91-7709641413 | ✉️ durgabhure19@gmail.com | 🔗 [LinkedIn](#) | 🌟 [GitHub](#)

Java Developer with hands-on experience in Core Java, Spring Boot, Hibernate, Angular, MySQL, and REST APIs. Skilled in designing and developing scalable, user-friendly applications using clean, layered architecture. Strong collaborator with the ability to deliver well-tested APIs and intuitive front-end solutions. Quick learner, adaptable to new technologies, and passionate about modern development practices, teamwork, and continuous growth.

EDUCATION

Bachelor of Engineering (Information Technology)

Priyadarshini College of Engineering, Nagpur 2024

CGPA: 7.76/10

EXPERIENCE

IT - NetworkZ Infosystems Pvt Ltd - Nagpur

IT Intern - Mar 2022 – Apr 2022

- Developed and tested web modules with a focus on server-side implementation.
- Gained practical experience in backend development, including API integration and database connectivity.
- Collaborated with mentors to understand full-stack workflows and deployment strategies.
- Completed structured training modules covering web technologies and client-server architecture.
- Applied academic learning to real-world tasks, improving technical and problem-solving skills.

SKILLS

Programming Languages: Java

Core Java: OOP concepts (Encapsulation, Abstraction, Inheritance, Polymorphism), Exception Handling, Constructors, Collections Framework

Frameworks: Spring, Spring Boot, Hibernate, Rest APIs

Tools: Git, Maven, Postman, Eclipse, VS Code

Database: MySQL, SQL Operation (DDL, DML, DCL, TCL).

Front End (Basic): HTML, CSS, JavaScript, Angular

Soft Skills: Time Management, Analytical Thinking, Adaptability, Communication.

Spoken Language: English, Marathi, Hindi

PROJECT

Attendify – Student Attendance Management API [Github-AttendifyAPI](#)

Tech Stack: Java, Spring Boot, Hibernate, MySQL, Maven

- Developed REST APIs to manage **student, attendance, subjects, faculty, and users**.
- Implemented **CRUD operations** for all modules.
- Followed **layered architecture (Controller, Service, DAO)** for clean code and scalability.
- Tested all APIs using Postman.

Campus Requirement API – Campus Placement Management Platform [Github-CampusRecruit_API](#)

Tech Stack: Java, Spring Boot, Hibernate, MySQL, Maven

- RESTful APIs for campus recruitment management (job postings, student registrations, interviews).
- Designed and implemented role-based authentication, full CRUD functionality, and status transitions (Apply → Interview).
- Used layered architecture and thoroughly tested with Postman.

Glorious - Makeup Artists & Models Collaboration Website

Tech stack: HTML, CSS, Angular

- Created a website where makeup artists and fashion models can **register** and **collaborate** for work opportunities.
- Provides a **user interface** for handling customer orders and professional **networking**.

CERTIFICATIONS

Java Full Stack Developer

2025

The Kiran Academy, Pune

- Covered Java, Spring Boot, Hibernate, MySQL, HTML, CSS, Angular and GitHub
